

Discover Numicon in Supporting Children with SEND

Key Learning Outcomes

This one day practical workshop focuses on the Numicon Breaking Barriers publication. It is designed to give you the opportunity to:

- Develop an understanding of the Numicon manipulatives and how they make abstract mathematical ideas real and 'visible';
- Experience the Numicon approach in action and consider how it can successfully support the learning needs of children who have not yet met key age-related objectives;
- Understand more about the barriers to mathematics some children may face;
- Discover how Numicon Breaking Barriers support the assessment and reteaching of key mathematical ideas from Years 1-3/P2-4 and Years 4-6/P5-7;
- Discover useful ideas and strategies which can be applied back in your classroom.

Agenda

- Introduction to the Numicon manipulatives
- Barriers to success in mathematics
- Key mathematical ideas with Numicon
- Increase teacher confidence in how to support the learning of children working below age related expectation and those with SEND

Date & Time

3rd October 2019
9.30-16.00

Venue

The Raglan Infant School
Wellington Road
Enfield
EN1 2NS

Who is this for?

Head teachers, Subject Leaders, SENCOs, teachers and TAs working in special schools and anyone teaching and supporting children with maths difficulties.

Course cost

£99pp +VAT

What is Numicon?

Based on the proven concrete-pictorial-abstract approach, Numicon encourages children to explore maths using structured imagery and apparatus in order to understand and explain mathematical concepts
